LA CHAMBRE BLANCHE is proud to welcome Éloïse Guénard for a research residency from February 13 to April 10, 2017. This residency is taking place within the framework of the exchange program with the Musée d'art contemporain du Val-de-Marne (MAC-VAL) and with the contribution of Consulate General of France in Quebec. You are invited to attend her presentation on March 23 from 5@7.

As a curator, Éloïse Guénard, reflects on the place of dance in a museum context. The stakes of a museology specific to dance are combined with those of the exhibition of contemporary artistic forms, particularly in the field of performance. Do the exchanges with the choreographic practice bring a renewed look and knowledge for the museum and the art center on the exhibition and reception pathways ? Moreover, can we detect interferences between choreographic processes and some curatorial forms involving time, space and rules of the game of exhibition ?

Through a series of interviews with choreographers, actors of the art community and artists, Guénard will seek to determine what is happening in Quebec. Thus intending to create a corpus of documents which will constitute a new archive for the documentation center of LA CHAMBRE BLANCHE.

Since 2016, Eloïse Guénard works as an independent curator and researcher. She recently put together the exhibition « Sous le soleil exactement. Coucher de soleil et lever de rideau » (at the Centre d'art Bastille, in Grenoble). She is also working on the initiative of a rural residency, she is interested by production and diffusion pathways based on temporality and spaces that differ from classic structures (Association Monsieur C., in Picardie). She is presently working on the idea of a geopolitical approach of the landscape.
