

# ARTISTS RESIDENCIES IN INDUSTRY

## residencies

from January 8 to April 2, 2017

## opening

on April 4, 2017 from 7pm to 11pm  
at the Musée de la Civilisation

## exhibition

from April 4 to June 10, 2017  
at the Musée de la Civilisation

For the past few months, LA CHAMBRE BLANCHE has been working on a project for artists residencies in industry. The concept of these residencies is to make tandems with four artists and four companies in Quebec city to produce an art project. At the end of these residencies, the tandems will present the result of their collaborations at the exhibition *F5 L'art se connecte*. The opening will take place on April 4 from 7pm to 11pm at the Musée de la civilisation during the Semaine numérique that will take place from April 1 to April 9.

- **Camille Bernard-Gravel** is attentive to the universe that surrounds her and takes her inspiration from its source. She creates links between technologies and the magnificence of nature. [www.camillebernardgravel.com](http://www.camillebernardgravel.com)  
**Spektrum** is the technological force of talented developers, the innovative business vision of experienced strategists and the desire to deliver quality projects without masquerading. [www.spektrummedia.com](http://www.spektrummedia.com)
- o **Julie Bouffard** is an artist offering, through photography and video, universes that are both slow and contemplative. Magnifying the everyday life and its banality. [juliebouffard.com](http://juliebouffard.com)  
**Studio Element** is a company of image artists offering creative solutions. Whether it be for cinema, television or shows, the objective is to tell a story by delivering emotions. [www.studioelement.ca](http://www.studioelement.ca)
- **Pascale LeBlanc Lavigne** produces works with unpredictable and poetic movements that oscillate between creation and destruction.  
**IXmédia** finds clear, intelligent, powerful and sustainable digital solutions that speak to people since more than 20 years. [www.ixmedia.com](http://www.ixmedia.com)  
**Kabane**, designs innovative, understandable and engaging campaigns. [www.kabane.ca](http://www.kabane.ca)
- o **Pierre-Olivier Roy** composes mixed and immersive music that combines traditional instruments and musical technologies in different contexts: concerts, music to image and audio design. [www.pierreolivierroy.ca](http://www.pierreolivierroy.ca)  
**Saga** creates augmented experiences in the physical world. [www.saga-fr.strikingly.com](http://www.saga-fr.strikingly.com)

The exhibition will be open from April 4 to June 10, 2017 at the Musée de la civilisation.
